Red Apple Town Center

The center features a synergistic mix of national, regional and established local operators that drive consistent daily traffic and cross-shopping activity. The diverse tenant lineup provides customer flow throughout the day, supporting both destination and convenience-based users.

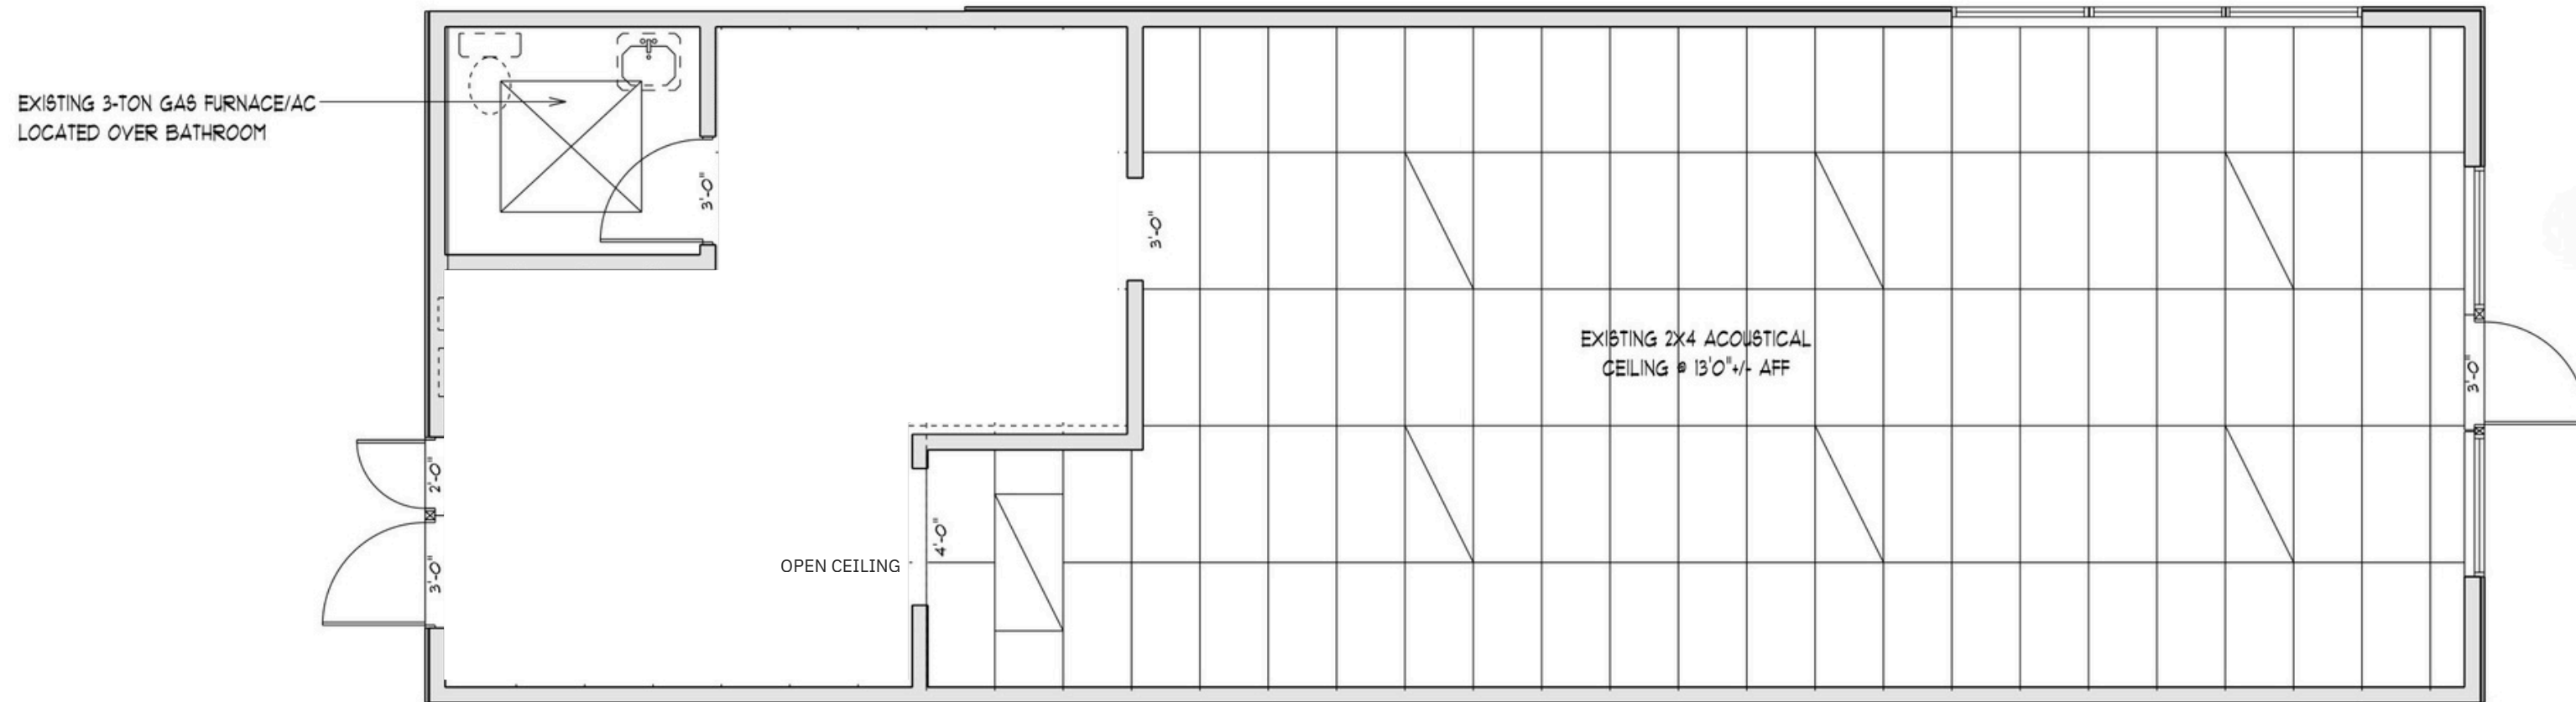

Co-tenants include strong combination of service-oriented retailers, quick-service dining, health and beauty providers, and necessity-based businesses, creating steady repeat visits and long term stability within the center.

This complementary tenant mix enhances visibility, strengthens consumer draw, and supports long-term sales performance for in-line tenants.
